This location has outstanding or expired permits. (Please see attached.)

Property Search Result Instructions

Once you receive your results for your property search you will need to see which box is checked off: there are open/expired permits or there are no open/expired permits.

1. If there are no open/expired permits you will not need to take any further action.
2. If there are open permits, we will provide an application for each that contains the contractor's business name & contact information.
 - a. If the permit is less than 5 years old, it is your responsibility then to contact the contractor to properly closeout the permit.
 - If you can't get a hold of the contractor or the contractor is non-compliant, then you can email the building official, John Freeland at freelandjc@cityofgainesville.org stating the address, the open permits, and why you need the permit to be closed out.
 - b. If the permit is more than 5 years old, then you can email the building official, John Freeland at freelandjc@cityofgainesville.org, stating the address, the open permits, and why you need the permit to be closed out.
3. Once the building official receives the email request, he will review the permit and decide whether a proper final inspection will need to be completed before closing the permit or if the permit can be administratively closed without a final.
4. To check on the status of the permit to see if it has been closed out, you can check our Public Permit access at <https://egov.cityofgainesville.org/citizenaccess/>
 - a. All you will need to do is go to 'Public Access'
 - b. Click on Permit-Inspect-Search
 - c. Next to Search By, Click the Application Number bubble. Then type in the permit number and Click Search.
 - d. Double click the permit to enter it.
 - e. If the status says 'CL' the permit has been closed out.
